## WEPOS Drain Ex Granules

### Description

Highly effective active granules. Loosens and dissolves even persistent blockages such as oil and grease residues, food, hair, soap scum, cotton wool, etc. in the kitchen and bathroom in basins and sinks, drains in the bath and shower, in the toilet and other drainage and piping systems. Self-acting and extremely fast. Even frozen drains are de-iced.

### Effect:

Loosens and clears blockages, such as stubborn oil and grease residues, food residues, hair, soap residues, cotton wool, etc., in drains and pipes. Acts independently within a very short time and clears blockages. Regular low-dosage use keeps drains free and prevents the formation of unpleasant odours. Also is able to defrost frozen drains.

### Application:

Kitchen and bathroom sinks, shower drains and basins, in toilets and other drainage piping systems.

### Direction of use:

In cases of clogged drains, remove standing water. Fill one half of the sealing cap with liquid and pour it into the sink, followed by one cup of cold water. (Caution! Risk of splashing.) Never cover sink with lid! Let liquid act for 30 minutes, and then rinse thoroughly with cold water. In cases of very persistent blockages, repeat procedure, but never increase the dosage volume.

As a preventive measure against odours, weekly pour one quarter of a sealing cap of Pipe-Clearing Granulate into the drain, followed by one cup of cold water.

### Important:

Product reacts strongly with water when subjected to the effects of heat. Never let water enter the packaging. Overdosing can result in overheating and consequently deformation of plastic pipes or hardening. Do not use aluminium containers and zinc pipes. Close container tightly after use.

### Technical Informations

- Density: n. a.
- PH: n. a.
- colour: flowable granules
- smell: n. a.

### Safety instructions:

Corrosive  
Causes severe burns.  
Keep locked up and out of the reach of children.  
Avoid contact with eyes.  
In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.  
After contact with skin, wash immediately with plenty of water.  
Wear suitable gloves and eye/face protection.  
In case of accident or if you feel unwell, seek medical advice immediately (show the label where possible).

### Packing unit

600 g-bottle (6 per box)

Please beware of: Always test the product in an inconspicuous area to evaluate suitability, coverage and performance. The liability of WEPOS for defective products and any claims for damages whatever is limited to the purchase price of the products. WEPOS shall not be liable for any consequential damages. No other warranty or representation is made or implied.
